Notes for Handlers, Veterinary Services

Notes for First Time Handlers

SLIP LEADS—There is a type of collar for coursing called a slip lead, which is worn only to control the dog prior to release. The collar drops away as the dog is released to chase the lure and they run without anything around their necks that could be dangerous. **Use of a slip lead is recommended but not required. What is important is that, for the safety of your dog, there are no objects on the dog that can be caught by the string or lure.**

INSPECTION—Dogs will be inspected by a designated Inspection Committee consisting of at least two persons who are members of the Field Committee and who shall inspect each entered dog for lameness, fitness to compete and female estrus (in season). Inspection shall take place prior to any form of wrapping being applied to the dog. In the opinion of the Inspection Committee, any entry found to be lame, unfit to compete or in season shall not be allowed to enter and the applicable entry fees shall be refunded. Dogs must be inspected before each event to assess whether an injury occurred since the last inspection.

WARM-UP, COOL-DOWN—It is highly recommended that all dogs running are walked out for about 10-15 minutes prior to and after their runs to get them warmed up and to cool them down. The warm up help reduce pulled muscles. The cool-down is very important to allow the dogs heart rate to slowly come to normal and because it helps prevent lactic acid build-up in the muscles that leads to soreness.

General Coursing Ability Test Information

Chintimini Kennel Club Coursing Ability Test

Oct. 5 and 6, 2024

Ribbons & Prizes:

Orange flat ribbon for completion of Test.

Dogs completing CAT titles at these tests will receive a special rosette.

What Must A Dog Do To Pass The C.A.T.? The Coursing Ability Test (C.A.T.) is a pass/fail. During a Test the dog runs the course once without any other dogs. Because safety is of the utmost importance, the C.A.T. takes into consideration the individual dog pursuing qualification and therefore has two different course lengths to accommodate the type and size of the entrant. In either case, dogs will chase a lure made of plastic strips.

Dogs Less Than 12" Tall & "Flat Faced" Dogs. Any entrant that is less than 12" tall at the withers and/or brachycephalic will run a 300-yard course with turns no more acute than 90 degrees. *For a 300-yard course, a dog must complete the test in less than 1 ½ minutes.*

Dogs More Than 12" Tall. Any entrant that is taller than 12" at the withers and not brachycephalic shall run a 600-yard course (or as close to 600 yards as possible) with turns no more acute than 90 degrees. *For a 600-yard course, a dog must complete the test in less than 2 minutes.*

Veteran Dogs. Veteran dogs are defined for this test as dogs older than 7 years of age. Veteran dogs may run two-thirds of the normal distance at the owner's discretion. A veteran dog's owner must declare prior to the start which distance the dog will run.

If there is a question which course a dog should run, the judge will decide.

In order to pass, the dog must complete the course with enthusiasm and without interruption within the maximum amount of time for the course length. The judge keeps the official time and decides the merits of the dog's performance.

C.A.T. Titles: Three titles will be awarded for dogs that pass the Coursing Ability Test the required number of times. These are suffix titles that will appear on a dog's pedigree with a higher-level title superseding a lower level title.

Coursing Ability (CA) – Awarded to a dog that passes the Coursing Ability Test three times under at least two different judges.

Coursing Ability Advanced (CAA) - Dog passes the Coursing Ability Test ten times.

Coursing Ability Excellent (CAX) – Dog passes the Coursing Ability Test 25 times.

Coursing Ability Excellent 2 (CAX2) – Dog passes the Coursing Ability Test 50 times. A higher numbered title will be awarded for every additional 25 passes.
